Hi Dave,

We have reviewed your comments and changes and they look fine with some minor revisions.

Paul has also reviewed the attached text and he requested that we send it back to you for one last look before we finalize the document. The title changes to the figures are also in graphics.

Thanks,

Steve

All - here are my comments/edits to the Word file for the pilot cap bathy report. If you have any concerns or disagree with any of my conclusions then lets discuss further rather than simply accepting my version.

Also, note that the titles of Figure 1, Figure 3 and Table 1 will have to be edited to replace "OU#3" with "pilot cap".

Thanks - Dave

Steve and all - I rec'd the pilot cap bathy report and at first glance it looks good...BUT we need to start being a little more careful with our terminology now that the ou3 ri/fs has started. For example the title of the document is currently listed as "Final 2009 Bathymetric Survey of Operable Unit #3". This is incorrect. Its just the bathy of the pilot cap, not the entire 17,000 acre ou3 area. This issue carries thru the entire report.

Easiest thing would be to send me the Word file and I'll make the appropriate edits, and then resubmit.

Thanks - Dave
